

Emergency Service

Mobile Water Services

Over 30 years experience

GE Mobile Water provides guaranteed water treatment services to keep you on-line and in production with essential services, innovative technology, specialized equipment and field service representatives unique to the industry.

Many industries around the world use GE Mobile Water services for an extensive range of applications.

- Emergency outages or equipment failure
- Planned outages for equipment repair
- Seasonal demands, product expansion
- Start-ups
- Change in raw water quality
- Sudden changes in effluent specifications
- Off-site regeneration/cleaning services

Services

Emergency Service – Mobile equipment to supply treated water within hours through our logistics support center

Supplemental Service – Mobile equipment to supply treated water during scheduled maintenance, start-ups, steam blows, testing or seasonal needs.

Extended Term Outsourcing – Equipment maintenance and personnel are provided to supply water treatment requirements on a long-term basis with guaranteed quality and quantity.

Technologies

Ion Exchange

Demineralizers¹ TDS reduction
Softeners¹ Hardness reduction
Condensate Polishing Iron and silica reduction

Membrane Separation

Reverse Osmosis¹ TDS and Organics reduction
(natural, brackish, seawater)
EDI TDS reduction post DI
GTM CO₂ and O₂ reduction
pre- and post- DI
ZeeWeed* UF TSS and cryptosporidium
reduction

Filtration

Multimedia Filtration¹ TSS and SDI reduction
Carbon Filtration¹ TSS and SDI reduction

Other

DEOX¹ O₂ reduction (hydrazine
+ carbon) pre- and post- DI
Dealkalization Reduction of alkalinity
